Driven and dedicated web developer with a strong foundation in front-end development. Passionate about creating engaging and user-friendly web applications using NextJS/React, TypeScript, HTML, and CSS. Experience in collaborating with cross-functional teams to deliver high-quality software solutions. Solid understanding of modern web development principles and best practices.

WORK EXPERIENCE

Web Developer
Freelance

08/2022 - Present   *St Petersburg, Russia*

Achievements/Tasks

- Developed a web application using Tailwind CSS, React, and Typescript to create a catalog of movies and series. Implemented features like sorting, filtering, viewing movie information, and watching movie trailers.
- Built an online bookstore website using Tailwind CSS, React, Typescript, and Redux Toolkit. Added functionalities such as filtering by name or last, cart functions, and user authentication.
- Developed an AI prompt sharing web app using Tailwind CSS, NextJS, MongoDB, and Typescript. Created Drimprompts, a platform for users to create, find, and share AI creative prompts.

EDUCATION

Information Science and Computer Engineering
St Petersburg Electrotechnical University
